Year of Passing
2027

EDUCATION

Banasthali Vidyapith

2023 - 2027

B.Tech - Information Technology - **9.36 CGPA**

Jaipur, Rajasthan

Relevant Coursework: Object Oriented Programming, OS, CN, Data Structures, Analysis of Algorithms

EXPERIENCE

Micro Information Technology Services

May 2025 – Jun 2025

Software Engineer Intern

Remote

- Built a **C++** health tracker app with **BMI/BMR calculator**, food logging, and workout planner, using **OOP concepts** and **file handling** to save data for **500+** users.
- Developed responsive web applications, including an interactive **Tic Tac Toe** game, using **HTML**, **CSS**, and **JavaScript** while collaborating in a **virtual development environment**.
- Improved **debugging process** and cut development time by **20%** by using **browser dev tools** and proper **code review** practices.

PROJECTS

AI-Powered YouTube Automation Agent

May 2026

Personal Project

- Developed an end-to-end **AI-powered YouTube automation system** that generates 30-day content plans, creates scripts using **Ollama (Qwen)**, and automates the entire video production workflow.
- Built an **AI video generation pipeline** integrating script generation, AI-based image creation (**Pollinations AI / Stable Diffusion**), voice synthesis (**Edge-TTS**), automated subtitles, and video rendering using **MoviePy** and **FFmpeg** into YouTube-ready MP4 videos.
- Integrated **YouTube Data API** and **Gmail services** to automate video uploads, monitor audience comments, and deliver daily comment digest reports via email.

EmoHeal – AI-Powered Mental Health Platform

July 2025 – Apr. 2026

Group Project

GitHub

- Developed a web-based mental health platform using **multimodal emotion detection** (webcam + microphone) with **OpenCV** and **Librosa**, achieving **~80% accuracy** in real-time facial and voice emotion classification.
- Designed an interactive **"Digital Garden"** dashboard that visualizes user emotional progress, paired with **AI chatbot** support for coping strategies and real-time emotional guidance.
- Built **therapy-based mini-games** (Fruit Ninja, Pac-Man) and integrated the **Spotify API** for mood-based personalized music recommendations, enhancing user engagement and stress relief.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js

Databases: MongoDB, MySQL, Oracle Database

AI/ML: OpenCV, NumPy, Pandas, OpenAI API

Tools & Platforms: Git, GitHub, Docker, Linux, VS Code

CERTIFICATIONS

- Graph Theory Programming Camp – AlgoUniversity Oct.'25
- Array Mastery – Crack Array Puzzles Like a Pro June'25
- 1-Month Virtual Internship on Web Development June'25

ACHIEVEMENTS AND EXTRACURRICULARS

- Akamai EmpowHer Codeathon 3.0**, Selected among Top 150 candidates. June 2026
- Subcore Team Member**, Mayukh Workshop Team – Organized technical workshops for MayukhXBV. Mar. 2026
- Ideathon Winner 2025**, Built a secure digital identity wallet, selected from 110+ teams. Oct. 2025
- NSS Volunteer**, Led cleanliness drives and outreach in a 7-day NSS camp, building teamwork skills. July 2023
